## About our Centre

The KIP Education Centre has been delivering its outstandingly successful learning program for three years now. The Centre teaches over 160 children every week, and offers a variety of subjects, session times and expert teachers to suit all requirements.

Children who come to our Centre for Reading, Maths or English quickly begin to enjoy learning again. Our teachers are all fully qualified and CRB checked, and bring with them a wide range of expert knowledge. Whatever your concern, we have a specialist who can help.

The first step towards a brighter future for your child is to book a **free educational assessment** with us. This will quickly highlight their strengths and any weaknesses. Based on this, a personalised program will be designed for your child to follow.

A combination of traditional one-on-one teaching and reinforcement work on the computer helps your child to get to grips with the concepts which are causing problems. We can help children from 4 years of age to GCSE level, with unique courses for Pre-Schoolers and Early Readers.

The programme is constantly adjusted so your child is always working at the appropriate level, with the right amount of stimulus and positive encouragement.

We also offer daytime tuition during the school holidays. Please call for more details.

### Session times

(Sessions are 80 minutes)

- ◆ Mon-Fri 4:00 pm and 5:30 pm.
- ◆ Saturday 10:00 am and 11.30 am.

# Why after-school tuition?

*...and how we give your child a brighter future!*

## Starting Tuition

The main goal of our Tuition Centre is to help your child reach a point where he or she is confidently able to succeed in a classroom situation at school. Most of the children who come to us are lacking confidence and our special methods quickly help boost their self-esteem and enjoyment of school.

Students who come to our Centre are taught one-on-one in small groups of a maximum of 5 students. We find this is the best way of achieving the goal for the following reasons:

### Shared sense of purpose

Children work better when there are others around them who are focused, active and proud of what they are achieving. This is the atmosphere within our Centre.

### Independent Learning

A key aim of our Centre is to develop independent learners. Students achieve this much more quickly if they are shown how to do something, and *then do it on their own* – without the teacher breathing down their neck!

### Making Friends

Children who come to our Centre enjoy meeting other kids. Often they will find children from their school there too. Friendship is a powerful motivator in learning, and our structured, cheerful and carefully monitored learning environment fosters positive friendships.

### Build Self Esteem

Children build their own self-esteem by being role-models for other students in the group, both

academically and socially. We avoid any negative comparisons by ensuring that each child is succeeding at their own level.

### Security of constant help

It is less threatening – *and therefore better for learning* – for a student to be allowed to process new learning without teacher involvement. However, when they need the teacher, she is there – they always have the security of constant available help.

### Transitioning to School

The educational value of coming for tuition lies in being able to transfer new skills back into the classroom. There is no doubt that it is easier to make this transfer from a small group of peers than from a one-on-one, adult-child setting.

### In Summary:

Learning takes place most effectively in a relaxed and friendly atmosphere. Our small group tuition encourages children to relax and enjoy being in the Centre. With a shared sense of purpose, supportive teachers, constructive friendships and positive role modeling children quickly gain confidence and begin to enjoy learning again.

If you would like to find out whether your child needs our help call for a free assessment.

## Who are we?

The Kip Centre in Crowborough is owned and run by mother and daughter team Tamsin Scott BSc. (Chem. Engineering), GTP and Diane Antone B.Sc.(Human Science), PGCE. They are experienced teachers who really care that every child should have the chance to do the best they can in life.

The Centre has gone from strength to strength and has grown rapidly in the last three years. We have a great team of professional, qualified teachers working with us to provide the very best tuition in English, Maths, Reading and Spelling.

When you bring your child to Kip you can rest assured that they will enjoy their tuition in a safe, comfortable, supportive and encouraging environment.
